Art Unit: 1618

Claims 11-27 are presented for examination.

The remarks filed on March 9, 2006 have been received and entered.

Claims 11-27 are rejected under Judicially created doctrine of obviousness double patenting as being unpatentable over claims 1-4, 7 and 9-11 of the U.S. Patent 6,395,746 for the reasons set forth on page 2 of the office action of September 9, 2005.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the presence of cyclopropyl as a possible "Y" group in the claims of the instant application, and lack of cyclopropyl in the claims of the U.S. Patent 6,395,746. The allegation is not well taken, considering that the U.S. Patent teaches cyclopropyl as possible Y group. See claim 1, line 11.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
